H1-Sup: archived VAL example, clip (13, 0)
Heatmap supervision and embedding membership are separate outputs
GT group 0, frame 90
GT group 1, frame 90
Predicted slot 2, frame 90
Predicted slot 7, frame 90
Feature-grid y (23 rows)
Feature-grid x (40 columns)
Gaussian target / predicted sigmoid response
Slot 2: first 7 actors only
Slot 7: first 7 actors only
Membership threshold only
Embedding membership
Heatmap ROI response (5-frame mean)
Response / membership
Actor ID (1-based); * = GT member of this group
